

WOOLUBE GREASE

WOOLUBE LANOLIN GREASE (TYPE A)

- ✓ **Environmentally Friendly**
- ✓ **Acid and Salt Resistant**
- ✓ **Resists Wash Off**
- ✓ **Long Term Protection**
- ✓ **Non Flammable Film**
- ✓ **Non Conductive to 70kv**

Woolube Lanolin Grease is a thick, tacky grease with high load capabilities that will not wash out under most conditions, from underwater to general use. Melt and apply with a paintbrush for heavier protection/rejuvenation. Woolube Lanolin Grease will provide excellent results as an anti-corrosive, thread anti-seize and lubricant.

TYPICAL APPLICATIONS

- Rubber grease, nozzle dip and anti-seize for threaded rods
- Great for battery terminals
- Cutting and Drilling aid
- Moisture proofing of multi pin plugs
- Stops galling of stainless and aluminium
- Heavy Machinery
- Irrigation Plant and pipes
- Rubber Gaskets and Seals
- .Stops electrolysis due to dissimilar metals
- Non perishing to rubber 'O' rings and seals

WOOLUBE GREASE

WOOLUBE LANOLIN GREASE (TYPE A)

APPLICATION GUIDE

- As an anti Seize, coat onto thread and under side of bolt head, wipe of any excess
- Smear grease between dissimilar metals before tightening
- Smear 'O' Rings and seals to prevent deterioration
- Can be used as a soft seal gasket
- Can be easily applied to wire rope using a paint brush roller
- Can also be used on wire rope using either the Masto or Viper applicator
- Can be used directly onto noisy belts as a belt dressing

APPROVALS

- HACCP Australian Food Safety Accreditation Systems - Food Grade Lubricant

AVAILABLE IN

- | | |
|-----------------------|---------------|
| • 300ml Tub | WG300T |
| • 450mL Gun Cartridge | WG450C |
| • 1 Litre Pail | WG1 |
| • 4 Litre Pail | WG4 |
| • 10 Litre Pail | WG10 |
| • 20 Litre Pail | WG20 |
| • 200 Litre Drum | WG200 |

6 Month Environmental Exposure Result

PHYSICAL PROPERTIES

- Appearance : Light brown grease
- Fragrance: Light wool fleece odour

STORAGE AND TRANSPORT

- Keep in a dry, cool well ventilated place
- Keep out of reach of children
