## GENERAL PURPOSE LIQUID LANOLIN

### APPLICATION GUIDE

- Lightly shake container before use.
- Woolube Ozspray General Purpose can be applied using a weed sprayer, brush or lambs wool applicator.
- When applying, hold 30cm away from object and apply as required.
- For use as a penetrant, spray Woolube Ozspray General Purpose onto object, allow sufficient time for product to penetrate, if trying to unscrew a seized nut, after spraying lightly work the nut back and forth, this will cause the lanolin to be rapidly absorbed into the thread and assist in releasing the nut.
- If the surface looks wet after application you have applied sufficient product.

## 6 Month Environmental Exposure Result
